Straight Pool Score Sheet

If higher-rated player is rated 550 or greater, race is to 125; 450-549, race is to 100; under 450, race is to 75. Please find the players' ratings, compute the difference, and then find the lower-rated player's expectation from the appropriate chart. ***Note: Players may race to a different total (75 or 100 or 125) than the default suggested above if both players agree before the match.***
